About the Conference

The APNA Annual Clinical Psychopharmacology Institute (CPI) focuses on complex clinical issues and is targeted for specialists in psychiatric nursing - those who administer and/or prescribe medications. Complex health issues, medication challenges, and recently approved medications will be addressed. Recognizing that a person is more than a mental health disorder, this institute addresses the interaction of health care issues, mental disorders, ethnopsychopharmacological treatment and care. CPI attracts attendance of 500-800 Nurse Practitioners and Clinical Nurse Specialists.
